From the minute Kimberly arrived we felt like she was one of the family.

She arrived at the house a day before we left so she could get the lay of the land and from the first time she met the 3 dogs and 1 cat they loved her.

We received updates with pics regularly which we loved as well as any information that she felt was necessary for us to be aware of.

When we arrived home a week later the house was in excellent condition, just as we left it and the furbabies were great.

Kimberley stayed with us for an extra 2 days at the end of the sit as her next sit didn't go back to back, we were more than happy to have her stay that extra bit.

The night that Kimberly left the youngest dog was looking for her, puppy love.

We would not hesitate in recommending Kimberly to take care of your home and beloved furbabies at any time and we have already booked her for August/September 2018.
